To: City Council Members'

Sadly, with changes in the government programs, the financial criteria for the grant we applied for requires a match of twenty-five thousand dollars. We are not able to meet that match and since we do not own the building it would not be feasible. We realize that you do not want to be landlords forever, but we ask that you extend the rent for another year.

We are in the process assisting another agency to assist our unemployed in our community. All of the agencies that support HCCP employ or assist our communities local individuals in need.

I would like to present testimonies of the positive impact that HCCP has brought to this community and the potential it will give in the future.

With the Experience Works program we have provided six individuals with jobs who have low income.

With the Promise Jobs Program we have provided four individuals with jobs. This program provides work for single parents who are on welfare to work for their stipend.

We have provided three kids, with barriers, training and work experience through the School To Work Program.

We have provided twenty juveniles with work to pay restitution for their crimes to the community.

We have assisted and found jobs for four felony offenders through the adult community service program. They are now working and paying their way as citizens of our community. Three have moved on to get their GED at NICC. We have also had at least ten other offenders come to our facility to complete their debt to society and have moved forward in their lives in a positive way (some who most people would consider a lost cause).

We are in the process of finding programming for our Vets who are dealing with joblessness in our county.

We are in the process of restoring the old gas station, which will provide not only a safe positive resting and visiting are for tourism and the community, but also a place for many of our local fundraisers to utilize for their programs (Girl Scouts, Boy Scouts, churches, etc.). They will be able to use the old gas station to sell their products and have a protected place to do so.

A personal note to the council, we strive to do whatever we can for this community and we are truly vested in this cause to help those individuals who fall through the cracks. We survive on the donations we receive and the few small grants we receive.

We continue to strive for the survival of our community and town. I ask that this council consider this program as a worthy cause and consider the people that utilize these services. We are one of the only places that provides community service and we have the most Experience Works individuals in the county with three more positions to be filled outside of our program, which includes the Chamber of Commerce, conservation and Kessel Museum. Our community service people helped to paint the entire grandstands at the fairgrounds with no cost to the town.

Without this facility many people and programs would have no place to go. I realize that the city has a huge decision to make but I truly believe that though we cannot afford to pay much, its value is priceless as far as the asset it brings to our town. If we lose this facility there will be very few, if any, places to take community service, promise jobs and the school to work people.

Our donations will go to other counties leaving our community and the money it brings to our community. I ask you to weigh the importance of this program. Please continue to help us make a difference in our community.

I thank you for your time. And support

To the city council,

Most of you know me, but for those who may not know my story let me share why I feel this facility (that you have allowed Howard county charitable project utilize) is such an important part of the lives of this community.

At the age of 14 I began to work at the Cresco hospital at night as a nurses aid and went to school during the day . In my Jr. Year I became a denial assistant for Dr. Heleman. When I graduated from high school I went to Kirkwood comm. Collage then came back to cresco and worked for the soil conservation service for 8 years as a soil tech. A close friend of mind was paralyzed in a airplane accident in mason city. So I left cresco once again to work for liberty mutual as his in home care giver, trained by the mayo clinic in the area of spinal injury. I spent 3 years assisting this friend makeing what was left of his life as normal as possible, He now is a stockholder agent for a large company. After the 3 years it was time for me to come home, After feeling displaced I was offered the management job for a recycling center newly developed in cresco, The job required working with the disabled and challenged and have a back ground in agriculture (funny how god works) for 15 years I worked with individuals with huge challenges, the next 5 years I was asked to work at the local thrift store and job coach individuals with disabilities in the hopes of integrating them into our community.

When the city council made it possible for the Howard county charitable projects to have a facility to do our own community thrift store it began a vision that would have never been possible with out that building. And let me tell you all why. Many talk about how hard it is to make a difference in this world , we all have ideas, but it is a lot of work ,little pay and ups and downs to actually make words reality. It takes a chance given to at least try ,and that is what the council has done for many citizens of our community that needed hope . Especially in these economic times. It is hard enough for a plane old citizen to find work, but when you have a label on your back its even harder.

I believe in this community and that is why I kept coming back. This is my home and with that comes the responsibility of keeping it alive and productive we have an entire inner community that falls through the cracks. they maybe don't quite fit because of some type of barrier. Be it Making a wrong decision and having to pay for mistakes through community service or because someone though your age was over what the thought was worth training you for, or that you were someone others felt were a burden to our community. to any other barriers that make them over looked. The county store primarily survives on what we bring in from donations, and a few small grants that as you all know are difficult to get. But with the programs we have been supported by such as experience works ,and promise jobs and community services. we have been able to put citizens to work and return them to our community as working citizens lessening the welfare burden. We have introduced them to the possibility that they can still get a GED, a job even if you're a felon, over 55,a single parent or a school child needing introduction to the working world.

I wish with all my will that we could have enough funding to buy this building, and make it a permanent place for our lost citizens .But at this time we just cant. So I ask that even

though the council doesn't want to be land lords forever the only option we have it to request the cont rental agreement . The positive to this town are real for this program we have and are proving it, It will never be a huge money maker ,but it is more then the that. It is a group of people including your council showing that we can make a difference that we don't just talk about what should be done but that we are doing it. We keep our donations in our community, we recycle in our community and we give our citizens who fall through the cracks a chance to change their lives and become productive tax paying, grocery shopping ,home renting/buying citizens ,vets, single parents and even those who got in trouble a chance to turn it around and change.

I truly believe in this community and will cont. to strive to make it a place to call home to others as I have and for what ever the council decides I believe it will be for the good of all

I sincerely thank you for doing all you have done and hope that we can cont. to fight the good fight.

To The Cresco City Council,

My name is Colleen Millen-Barragan. I would like to share with you how The County Store has given me an opportunity to become a part of this community.

For many years I worked in the medical field. When I lost my job, due to my barriers, I felt I had lost myself.

Because of the Howard County Charitable Projects and the City council making this facility possible, I am working again and that is something that has made a huge difference in my life. Because this business is a non-profit facility in this county and town, I qualified for the Experience Works program. You have no idea what it feels like to be 55 and feel you are no longer useful!

I am now the office assistant manager and am able to work again. I wish to let you know that without this facility or program I am not sure what I would have done. I have become a part of this community as a working citizen. I wish I could explain to all of you how important that is to me. I pray that none of you have to face what I have had to. However, if you do, I know The County Store will be there to back you up and help in any way they can. This is a place that is truly making a difference in people's live when there is no where else for them to go for help. and in this community. In my opinion, this is a positive resource for this community.

I deal with all the individuals that pass through these doors, Community service, Experience Works, Promise Jobs, School-To-Work, We Works and more. These are our own citizens that get an opportunity to be part of this community again and a chance to turn things around. The County Store survives only on the money from donations, products donated and a few small grants here and there.

One of the things I often hear, as I go through paperwork, is why don't other communities have this kind of place of if it wasn't for this place I wouldn't have had a chance to change my life and turn things around. We always let them know that we are thankful to the city council for allowing us to have this facility and the generous donations that we receive.

You may not hear a thank-you or how you have made such a positive impact on this community and on individuals lives, so let me say this to you now, you are making a difference by allowing The County Store to rent your facility. I personally hope you will allow HCCP the opportunity to continue the positive impact they are giving this community. I thank you and appreciate what you have personally done for me and want you to know that you have given me a reason to love life again.

Sincerely,

Colleen Millen-Barragan

My name is Patrick and I would like to share my

The County Store has given me an opportunity to complete my community service where there were no other businesses to complete the service. I still have community service hours to complete, however, I am now employed full-time. I have no license so it is also convenient to walk to The County Store and I was able to purchase low cost items for apartment. This is due to Diane's support. I am also looking to complete my GED in the future. I now have an apartment in town and feel I am a part of this community. I enjoy living in Cresco and am thankful that this community cares enough for those who have made mistakes. Through the county store and the building the work out of I have a second chance and thank you for making that possible with the old building.....As a felon I now have turned my life around and am a working citizen in this community and feel very protective of it . Let them cont. this program for others like me. thanks

Patrick

I am writing on behalf in support of the work that is done at the County Store through Howard County Charitable Projects. In the past 10 months, I have had the opportunity to spend time at this facility in the work that I do with people. There are many things I could highlight as positives; however, what I have found most impressive is the advantages this facility offers to help people. There are many ways they do this: by offering affordable clothing and household supplies, by being a site where people are able to bring their items to be recycled in one way or another, the actual recycling that takes place here but mostly the way they are able to help people personally. I have been witness to many people who come there for one reason or another, many times for community service, and they leave with skills, a sense of accomplishment and most importantly pride in themselves. I have seen people there who have gone on to become gainfully employed community members. This, I feel, is the most important of all the aspects of this organization.

I noticed this in the past, which is what inspired my business partner and I to start Creative Services. There are many people in this community and northeast Iowa who want to be employed, however, don't have the skills needed to either become hired, or stay employed. This facility is crucial to our mission and the needs of the area. It is the intention of Creative Services to continue to work with the County Store to help these people become and remain successfully employed and appreciate your continued support.

In appreciation,

To the city council,
My name is Doreen i came to the county store one and one half years ago on a program called promise jobs. I am a single parent in this county and times were tuff trying to raise my children. I worked 20 hours a week for a monthly stipend in order to receive my welfare support. When my time allowed ran out I was hired as an employee. Had it not been for the Howard county charitable projects I would not have been able to find a place to do my promise jobs program and would not have a job now so I can be a cresco citizen doing my part. I want to thank the city council for making this happen by allowing the county store be in the old city hall. I hope you will let them cont. so others like me can have a chance to make a difference in their lives and becoming working citizens so we can cont. to be a part of and support this good town. Thank you for caring for those of us by allowing this program to be a part of our community.

To whom it may concern:

This letter is a letter of support for Diane Kueker, Manager of The County Store in Cresco. Experience Works is a non-profit training program for Older Americans facing the challenges of poverty and unemployment. Much of our program relies on referrals and assistance with case managing our Older Americans in the Experience Works Program.

Experience Works has had the pleasure to work with an outstanding and wonderful Manager, Diane Kueker. Diane is completely knowledgeable about the needs of the local community, and is willing to assist Experience Works in all aspects of enrollment. A high level of trust and respect has been built up with Diane and we continue to foster this relationship on a regular basis. The success of the Experience Works program is helping those Older Americans, and individuals most in need, to lead successful, promising lives. Diane plays an instrumental part of this by providing wonderful case management, support, and referrals. Many times has she dropped what she was doing to help our organization assist a participant. Without the collaboration from the County Store, Experience Works would not be able to serve the public and community of Cresco as well as Howard County. Diane's efforts, and those representing The County Store, are to be commended.

Diane Kueker and The County Store have our full support. I look forward to continuing the partnership that we have worked hard to develop.

To whom it may concern:

This letter is written in support of continued support of the County Store in Cresco. I am the probation/parole officer for Howard County and am grateful that Diane has allowed several of my clients to complete community service at the store. In my opinion the County Store and Diane have assisted my clients in repaying their court debts and have allowed them to become contributing part of the community. Without the County Store there are very few Community Service opportunities in the Howard County area that offer the flexibility and reliability of the County Store.
