Informational Meeting to Discuss Solar Options for City of Cresco

The City of Cresco is holding an informational public meeting on Monday, November 2, 2015 at 5:30pm in City Hall located at 130 N Park Cresco, IA. The meeting will be held to discuss possible solar options at nine (9) separate City owned locations. Four (4) of the proposed installations would be roof mounts and five (5) would be ground mounts. The City of Cresco would not own or maintain the solar arrays. The arrays would be funded through private investors and the City would purchase power from the investors at a reduced rate. This is accomplished with a contract called a (PPA) Power Purchase Agreement, which allows the investors to take the investment and renewable energy tax credits that are useless to the City and make a reasonable return on their investment while reducing the City's energy costs. If the City of Cresco moves forward with the proposed solar arrays that are being explored it is estimated the City will save approximately \$9,600.00 per year on energy costs for the length of the contract, which might be up to 25 years in length. The public's attendance at this meeting will be greatly appreciated. The City of Cresco wants to hear your opinion.
